As such we aim to continuously improve health and safety in the workplace through consultation and increased health and safety awareness of management and workers.

Through the co-operative efforts of management and workers, we are committed to:

- providing a safe environment for all workers and visitors to our workplace;
- providing and maintaining buildings, plant and equipment in safe working condition;
- supporting the on-going training and assessment of workers;
- developing, implementing and monitoring safe work practices;
- continuously improving the standards of health and safety in the workplace;
- managing risks in the workplace; and
- providing information, instruction and supervision.

The focus of Taillem Bend Community Centre's health and safety management system is preventing hazards. We will develop a framework for health and safety management and a plan for systematic risk assessment and control of hazards, to progressively improve safe behaviours and safe systems of work across the business.
